

PONDURI DANUSH

#ponduridanush@gmail.com | +91-9030551889 |  Danush |  DANUSH Andhra Pradesh, India

Professional Summary

B. Tech Computer Science and Engineering graduate from R.M.D. Engineering College, Chennai, with hands-on knowledge of Artificial Intelligence, Deep Learning, Generative AI, and Multi-Agent Systems. Skilled in developing scalable AI solutions and applying machine learning techniques to real-world problems. Strong foundation in Python, data structures, databases, and software development, with a passion for building innovative and production-ready AI applications. Technical Skills.

Programming: Python, Java, SQL, HTML/CSS
AI/ML & GenAI: TensorFlow, Scikit-learn, Hugging Face, LLMs, Prompt Engineering, RAG, Multi-Agent Systems
Web & APIs: FastAPI, Flask, Bootstrap
Tools & Platforms: Git, Jupyter, VS Code, PostgreSQL, MySQL

Technical Projects

Multi-Agentic Report Generator App LangGraph, LangChain, Python, LLMs	November 2025
- Designed a multi-agent AI system using LangGraph to collaboratively generate structured reports - Built specialized agents for research, analysis, and synthesis, reducing report generation time by 70% - Integrated multiple LLM APIs (OpenAI, Groq, Ollama) with fallback mechanisms for reliability	
Agentic Chatbot with Tool Integration LangGraph, LangChain, Streamlit, Python	October 2025
- Developed an agentic chatbot with multi-mode support: conversational AI, tool execution, and AI news aggregation - Implemented LangGraph-based state management for complex dialogue flows and persistent context - Built a Streamlit UI with real-time response streaming and dynamic tool integration	
Smart Blood Bank Management System Python, SQL, HTML, CSS	
- Developed a centralized blood bank management system to manage donor, recipient, blood inventory, and blood request records. - Implemented real-time blood availability tracking and request management to reduce delays in finding required blood groups. - Designed a user-friendly interface with database integration for efficient, secure, and organized blood bank operations.	

Professional Experience

Sun Square Technologies Pvt. Ltd.	june 2026– july 2026 Nellore, Andhra Pradesh, India
- Completed an academic internship in Data Analytics, gaining practical exposure to data analysis and data-driven problem-solving. Applied Python, data preprocessing, and machine learning techniques to analyze movie data and generate personalized recommendations. - Applied data preprocessing, analysis, and visualization techniques to analyze datasets and derive meaningful insights. Gained hands-on experience in data analytics, real-world project implementation, and analytical problem-solving.	

Education

R.M.D ENGINEERING COLLEGE	current studying CGPA: 7.1
Bachelor of Technology in Artificial Intelligence and Machine Learning	
VOWEL JUNIOR COLLAGE	2022-2024 Percentage 81.6
MPC Intermediate	
VOWEL INDIA SCHOOL	2022 Percentage 75.67

Certifications

Java for Beginners – Core programming fundamentals and object-oriented design
Oracle APEX Cloud Developer Certified Professional: Oracle APEX application development, SQL, PL/SQL, and database solutions
Oracle Cloud Infrastructure 2025 Certified Generative AI Professional: Generative AI concepts, OCI AI services, and LLM applications
Agentic AI: AI agents, LLM-based workflows, tool usage, and multi-agent systems
